

Ivan Franko National University of Lviv

The first announcement on holding the International scientific on-line conference "Current problems in astronomy and astrophysics"

Dear colleagues!

We would like to inform you that on September 23-26, 2024, the Ivan Franko National University of Lviv plans to hold the International Scientific on-nline Conference "Current Problems in Astronomy and Astrophysics" dedicated to the discussion of new research results of Ukrainian and foreign researchers. The conference program includes plenary and sectional meetings.

You and your colleagues are invited to participate in the conference!

Scientific subjects of the conference:

- physics of stars, interstellar medium, galaxies,
- physics of the Sun, planets and the Solar System,
- extragalactic astronomy, cosmology and gravity,
- high energy astrophysics, physics of near space and the Earth artificial satelites,
- history of astronomy and astronomical education in Ukraine.

Languages: Ukrainian, English.

Dates and times:

The conference sessions will be held on September 23-26, 2024 in Zoom platform.

Plenary meetings (10.00 — 13.00). The link will be sent on the eve of the conference.

Section meetings (15.00 — 18.00). The links will be sent on the eve of the conference.

Registration Deadline: to participate in the conference, it is necessary to register by September 1, 2024 on its website (the address is given below). The registration form contains the application for participation, the title and abstract(s) of the report(s).

There is no conference fee.

Address of LOC: 8 Kyryla i Methodia Str., Lviv, 79005 Ukraine
